SUMMARY

   I have strong theoretical knowledge and good practical skills in creating responsive web pages.
   Well familiar with using JavaScript, TypeScript, React and Redux for best web application performance.
   Knowing the basics of Python and Django for writing a backend server.
   I enjoy to learn and explore new things, improve and get better.

SOFT SKILLS

Enjoyable team player
Analytical mindset
Quick learner
Responsible
Proactive

HARD SKILLS

- Program languages: JavaScript, TypeScript, Phyton (basics), CSS/Sass(SCSS)
- Frameworks & libraries: React, AlpineJS, Redux, Django (basics), GreenSock (basics), TailwindCSS
- API: GraphQL, Apollo Client, Insomnia,
- Version control: Gitlab/Github
- CMS: MODX
- PSD to HTML: Figma
- Task Management and tools: Docker, Git, Webpack, Slack, ClickUp
- Other skills: Photoshop
- English: Intermediate+

EXPERIENCE

Frontend developer
Lux-medien, Full-time | 11.2022 - present

- I am developing frontend side of "Calcutron" web-application for Hundt Elektrosysteme (Hermann Hundt Ing. GmbH). Calcutron it is a complex web-application designed to create Estimates for electrical works. Including with the use of machine learning technology to automate the preparation of Estimates.

  Technologies used: TypeScript, React, Redux, dnd-kit, Formik, Yup, Tailwindcss, GraphQL, Apollo Client, Python, Graphene-django, PostgreSQL, TensorFlow, pandas

- Maintaining frontend side of app.sprungbrett-handwerk (https://sprungbrett-handwerk.de/start.html). This is a web-application for job searching. I adapted all frontend side from JavaScript to TypeScript. Took part in changing of backend business logic according to the client's wishes.

  Technologies used: TypeScript, React, Redux, Formik, Yup, Tailwindcss, GraphQL, Apollo Client, Python, Graphene-django, PostgreSQL

- Maintaining frontend and backend side of Lux-medien web-hosting platform. I adapted all frontend side of "luxadmin" from JavaScript to TypeScript. I am improving and developing new services for backend side.

  Technologies used: TypeScript, React, Redux, Formik, Yup, Tailwindcss, GraphQL, Apollo Client, Python, Graphene-django, PostgreSQL

Frontend developer

Training projects | 11.2021 - 11.2022

<u>Portfolio Website</u>
  Technologies used: JavaScript, React, CSS, BEM
- [Webpage](#)
- [GitHub Code](#)

<u>App To Do list</u>
        Technologies used: TypeScript, React
- [Webpage](#)
- [GitHub Code](#)

<u>Landing Museum</u>
        Technologies used: CSS, HTML, BEM, JS
